OUR CONVICTION

SIMPLE, FLEXIBLE, AND VARIED –

this perfectly sums up our innovative and professional food concepts. We truly believe healthy eating should not only taste good, but it should also look good and be enjoyable.

We pay particular attention to the freshness, sustainability, and fair trade of our products. We only process selected resources. More than 95% of them are produced in the European Union.

Our benchmarks are the variety of possible uses as well as market innovation. Our dressings, dips, sauces, and desserts are regularly optimised and further developed. To ensure that the natural aromas are preserved, our products are prepared gently and, whenever possible, cold. The aim is always to avoid the use of additives that have to be declared.

Homemade with love: these is the cornerstone of our range – characteristics that are reflected in the quality and taste.

We love what we do, and you can taste it!

Bigfood is certified according to the IFS Food Standard “Higher Level” Our quality management system is regularly audited by internal and external auditors.

Proud to be a
Sedex[®]
Member

As a Sedex member, we are committed to being a responsible company, sourcing responsibly and continuously improving ethical standards and working conditions within the supply chain.

Achieve your climate targets with our products from 100% green electricity production! Our sustainability management measures for you, how many tonnes of CO₂ equivalents are generated and saved.

Our environmental footprints are externally verified in accordance with ISO 14064 and the GHG protocol externally verified and are proven to fulfil the highest quality standards.

THE INNOVATION

100% RECYCLABLE

The new black bottle not only still looks high in quality, but is also now 100% recyclable.

CIRCULAR ECONOMY

When correctly disposed of, the bottle can return to the recycling cycle. At least 28% of the original CO2 emissions of the bottle are saved.*

LATEST INNOVATION IN THE FOOD SECTOR

We have the solution for recyclability of black plastic bottles in the food sector. We are delighted about this next milestone.

Our Optimahl Starline formulations are already available in recyclable bottle!

* Study based on DEFRA database; the recyclability makes CO2 savings possible through the substitution of virgin plastic in the subsequent life cycle with proper disposal. More information available via: nachhaltigkeit@bigfood-group.com

FOOD TREND SNACKS

Our lives are taken up by work! We frequently lack the time and energy to cook at home. This is just where the trend towards snacking comes in.

A quick bite for in between, or on the go, and preferably fresh & fast.

It's a diverse playground for our products and us!

We are taking up the challenge of offering demanding consumers a variety that leaves nothing to be desired – regardless of their type of diet.

Are you interested in our snack concept? Speak to us!

FIG AND HONEY MUSTARD CREAM

Whether as a spread on bread, on a cheese platter, or to refine your snack compositions: With notes of fruity figs, sweet honey, and a fine mustard, it is always an ideal combination!

POMODORE CHILI

Made from sun-ripened, dried tomatoes. Spicy, hot, and slightly sour, it goes perfectly with pasta or Mediterranean casseroles.

GENOVESE-STYLE BASIL PESTO ART

A must for every pasta dish! Delicious as a spread with grilled vegetables, on a slice of traditional bread, or in Mediterranean burger creations.

OUR TEAM – YOUR ADDED VALUE

OUR CULINARY DEVELOPMENT TEAM IS THERE FOR YOU WITH ADVICE AND SUPPORT!

Would you like to develop new recipes or an entire concept? Are you looking for ideas for your menu or would you like to outsource the creation? We want to understand you and make your guests happy. For this we put your ideas directly into practice: In our own cooking studio, we develop concepts with a guarantee of success, our own signature and complete calculation. In this way we create a combination of innovative products, individual application and finally our own food concept. We love to inspire our customers with an idea, to see this idea grow in a common exchange and finally to realize it in a distinctive manner. By the way: We are also happy to train your employees!

DO YOU HAVE SPECIAL REQUIREMENTS FOR YOUR PRODUCTS?

New diets have changed the demands placed on our food. Food allergies and intolerances are also on the rise. It is not only the quality of our products that is important to us, but also that everyone can enjoy them.

No matter which ingredients you want to avoid: We are up to the challenge and are happy to advise you!

YOUR PERSONAL RECIPE

Sometimes your own creations are simply the best! You have found the product of your dreams, which you are making by yourself, but the facilities are becoming too small? Talk to us to see whether we can make your products at our facilities. Customised solutions and individual designs really get us rolling.

With us, you can reach your climate goals – and you can prove it!!

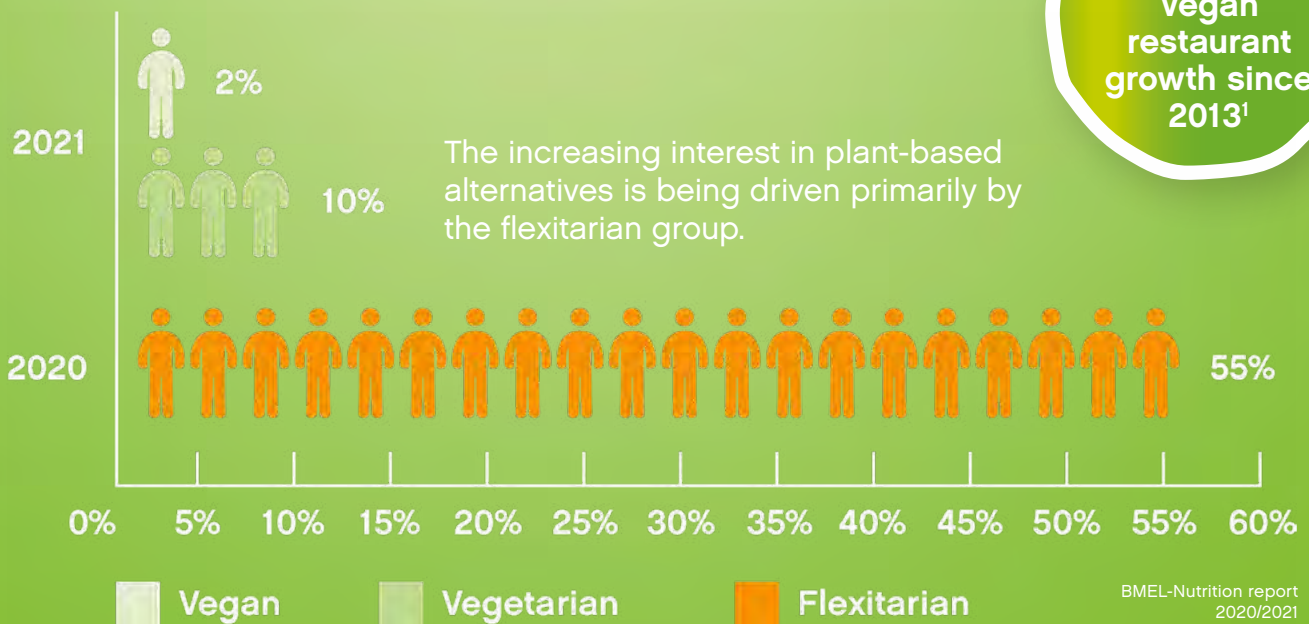

Sustainability is becoming increasingly important in the catering industry.

The demand for plant-based dishes is rising as more and more people in Germany are choosing a vegan, vegetarian or flexitarian lifestyle.

The three main factors for a plant-based diet are: environmental protection, healthy eating and animal welfare.
